

## World Diabetes Day (14th November, 2022)

On the eve of World Diabetes Day, 2022, the Department Of Medicine, ELMCH organised a CME with focus on “**Diabetes management Current perspective**”. The CME included lectures on early Diabetes identification based on New Guidelines by World Diabetes Association. A brief overview of Diabetes Management in Young and under special circumstances like pregnancy and modification of regimens in old age was given.

The CME was headed by the Head of Department, Dr. Prof Jalees Fatima who shared her wisdom and experience regarding diabetes in young adults. A discussion on Maturity Onset Diabetes Mellitus and Latent Diabetes Mellitus was given Dr. Prof. Vaibhav Shukla. The CME was graced by Dr. Prof Zeba Siddiqi and Dr. Prof. Devendra Kumar. The Hon’ Vice Chancellor and Dean also championed the cause of Diabetes Management to the Students and young doctors present on the occasion.
