Personalised drugs in focus

Lucknow: Patients can receive better treatment and experience improved recovery with the wider implementation of personalised medicine. This was discussed by experts at ISPMCON-2025, a two-day international conference on "Breakthroughs in cardiology and neurology" held at Era University. The event was organised by the personalised & molecular medicine department in collaboration with the National Academy of Medical Sciences.

Over 200 delegates attended the conference, where over 20 lectures, 50 posters and 25 research papers were presented. **TNN**
