Indian Society of Personalized Medicine (ISPM)

Indian Society of Personalized Medicine is the first registered society in India, which has been established in 2021, under the leadership of Prof. (Dr.) Farzana Mahdi, together with various National and International advisors. The society was formed with the vision to bring scientists, academicians and clinicians on one platform so that their expertise can be utilized for specialized patient care and eventually to streamline the public health at large. The main objectives of the society is to disseminate knowledge and promote academic excellence in the field of Personalized Medicine.

Scientific Sessions

- **Predictive Personalized Medicine: Forecasting Disease Before It Begins**
- **Personalized Medicine in Heart Failure**
- **From Nano to Precision Medicine**
- **Next-Generation Precision Oncology**
- **Personalized Medicine in Ophthalmology**
- **AI and Digital Health for Risk Prediction**

Key Highlights

- **Expert Talks & Technical Sessions**
- **Flash Talks**
- **Poster Presentations**
- **Networking**
- **Collaboration**

About ISPMCON-2026

The 5th International Conference on Personalized Medicine (ISPMCON-2026), organized by the Department of Personalized and Molecular Medicine, Era University, Lucknow, under the aegis of the Indian Society of Personalized Medicine (ISPM), will be held on November 13–14, 2026. With the theme “Predict, Prevent, Personalize: Shaping the Future of Health,” the conference will bring together clinicians, scientists, researchers, academicians, and innovators to explore advances in personalized and precision medicine. The conference will focus on emerging developments in genomics, multi-omics, molecular diagnostics, biomarkers, pharmacogenomics, nanotechnology, artificial intelligence, digital health, systems biology, and targeted therapeutics. It will highlight how integration of molecular, genetic, clinical, phenotypic, and digital data is transforming disease-risk prediction, early detection, diagnosis, prognosis, prevention, treatment selection, and therapeutic monitoring across diverse diseases and health conditions. ISPMCON-2026 will provide a multidisciplinary platform for knowledge exchange, cutting-edge research, translational innovation, and national and international collaboration. Emphasis will be placed on translating fundamental discoveries into clinically relevant applications and advancing precise, predictive, preventive, evidence-based, and patient-centered healthcare tailored to individual biological and clinical characteristics.

About the Department of Personalized and Molecular Medicine

Department of Personalized and Molecular Medicine was established on 15th March 2019. The Department is first of its kind in India and is being established under the leadership of Prof. Farzana Mahdi, with the aim TO ENSURE BETTER PATIENT CARE by enabling each patient to receive early diagnosis, risk assessments, and optimal treatment. The Department of Personalized and Molecular Medicine, Era's Lucknow Medical College & Hospital, Era University, Lucknow considers individual patterns of genomic, dietary and environmental factors into account in the predictive, diagnostic, and prognostic phase: We separates patients into groups with similar characteristics, and provides information on the best individual treatment. This enables all patients to benefit from their own, "personal" therapy with highest safety standard and lowest cost.

About Era University

Era University, a premier health sciences institution in Lucknow, is dedicated to shaping the future of healthcare. We offer a comprehensive range of undergraduate, postgraduate, and doctoral programs, all led by distinguished faculty who are experts in their fields. Our state-of-the-art facilities, including modern classrooms, well-equipped laboratories, and simulation centres, provide an immersive learning environment that fosters academic excellence and personal growth. Era University is also at the forefront of ground breaking research, tackling pressing healthcare challenges and advancing medical knowledge. Beyond academics, Era University is deeply committed to serving the community. Through outreach programs, health camps, and partnerships, we actively work to improve healthcare access and outcomes for all. We believe in collaboration, partnering with leading institutions worldwide to exchange knowledge and best practices, enriching the learning experience for our students and faculty.
