Guest Lecture on “From Degree to Career: The Skills AI Cannot Replace” Organised by NEP SAARTHI and Department of Liberal Education

As part of its ongoing initiatives to promote holistic learning and meaningful academic engagement, **NEP SAARTHI**, in collaboration with the **Department of Liberal Education, Era University**, organised a guest lecture titled “**From Degree to Career: The Skills AI Cannot Replace**” on **Friday, 25 September 2026**. The programme was conducted under the supervision of **Prof. (Dr.) Sheeba Rizvi, NEP Coordinator, Era University**.

The insightful session was delivered by **Dr. Anamta Rizvi**, a distinguished writer, orator, and scholar of English Literature. The lecture focused on the growing influence of Artificial Intelligence (AI) and highlighted the importance of developing human skills, values, emotional intelligence, interpersonal relationships, and ethical qualities that remain uniquely significant in an increasingly technology-driven world.

The programme commenced at **11:30 a.m.** in the **Mini Auditorium** and was attended by **Prof. (Dr.) A. K. Srivastava, Dean, Faculty of Science; Prof. (Dr.) Tanveer Khadija, Dean, Student Welfare; Prof. (Dr.) Sheeba Rizvi, NEP Coordinator and Head, Department of Liberal Education; Prof. Meeta Ghosh, Head, Department of Happiness; faculty members from various departments; and around 200 students**.

The event began with a warm welcome to the guest speaker, followed by the presentation of a planter by **Prof. (Dr.) A. K. Srivastava, Dean, Faculty of Science**.

During her engaging lecture, **Dr. Anamta Rizvi** addressed common assumptions surrounding the potential of Artificial Intelligence to replace human beings across various domains. She emphasized that while AI can enhance efficiency and perform numerous tasks, qualities such as empathy, creativity, critical thinking, emotional understanding, human relationships, ethical judgement, and compassion remain fundamentally human. She encouraged students to focus not only on academic qualifications but also on developing the interpersonal and life skills that will help them navigate the evolving world of work.

The interactive nature of the session was reflected in the enthusiastic participation of the students. The lecture was followed by a lively question-and-answer session, during which the speaker addressed various queries raised by the attendees and further elaborated on the role of human skills in the age of Artificial Intelligence.

As a token of appreciation, a **memento and certificate** were presented to **Dr. Anamta Rizvi** by **Prof. (Dr.) Tanveer Khadija, Dean, Student Welfare**, and **Prof. (Dr.) Sheeba Rizvi, Head, Department of Liberal Education**.

The programme concluded successfully with active participation from students and faculty members. The event was coordinated by **NEP SAARTHI Faiza Zehra**, with the support of student volunteers **Mr. Rajvansh** and **Ms. Tanzila Bano** from the Department of Liberal Education.

The guest lecture served as an enriching platform for students to reflect on the skills and values that will remain essential in their personal and professional journeys, reinforcing the importance of combining academic knowledge with distinctly human qualities in an AI-driven era.
