

Intramural Faculty Research Projects -2013-14

Sr. No.	Principal Investigator	Department	Department	Title of the Project	Status
1.	Dr. Navbir Pasricha	Anatomy	Anatomy	A study of morphology and histology of placentae in anaemic women & its correlation with foetal outcome	Running
2.	Dr. Pragati Garg	Ophthalmology	Ophthalmology	Clinical profile of headache with ocular bias: A hospital based study	Running
3.	Dr. Rubie Malhotra	Ophthalmology	Ophthalmology	Bevacizumab as an adjunct to laser therapy for macular oedema in retinal vein occlusion.	Running
4.	Dr. Luxmi Singh	Ophthalmology	Ophthalmology	Preperimetric diagnosis of POAG by OCT.	Running
5.	Dr. Sudeep Kumar	Orthopedics	Orthopedics	Functional outcome of peri-arthritis shoulder treated with trans-cutaneous electrical nerve stimulation or interferential electrotherapy followed by heat therapy & vice-versa.	Running
6.	Dr. Sachin Khandoori	Radiology	Radiology	Comparative study trans rectal ultrasound with colour Doppler vs contrast enhanced MRI for evaluation of suspicious prostatic nodules with histopathological confirmation.	Running
7.	Dr. R.K. Bundela	Ophthalmology	Ophthalmology	Role of sclerosing agent (sodium tetradecyl sulphate) in extra ocular hemangiomas.	Running
8.	Dr. A.N. Srivastava	Pathology	Pathology	Breast cancer screening in women of rural population of Kakori and malihabad block of luck now district through organizing camps and creating awareness for breast self examination.	Running
9.	Dr. Brijesh Rathore	Biochemistry	Biochemistry	Effect of saffron extract on oxidative stress in mouse model of rheumatoid arthritis.	Running
10.	Mr. Mohsin Ali Khan Dr. A. N. Srivastava	Secretary E.E.T	Secretary E.E.T	Chronic stress, telomere shortening and neuropeptides/ neurotransmitters derangement: a correlative study in poorly performing medical students.	Running
11.	Mr. Mohsin Ali Khan/Dr. Shadma Yaqoob	Secretary E.E.T	Secretary E.E.T	Inhibitory effect of copper on bacterial and fungal growth.	Running

12.	Mr. Mohsin Ali Khan/Dr. A. N. Srivastava Dr. Aparna Misra	Secretary E.E.T	Secretary E.E.T	Reducing the rate of tumor growth by alteration of PH.	Running
13.	Dr. Sharique Ahmad	Pathology	Pathology	3-D Computational under-graduates teaching of cellular molecular pathology: New Horizon & tool for pedagogy.	Completed
14.	Dr. Nitin Panday	Physiology	Physiology	Animation an interesting technology, to teach medical students.	Completed
15.	Dr. Afroz Abidi	Pharmacology	Pharmacology	Comparative clinical evolution of Efficacy and safety of methotrexate and pioglitazone and their combination therapy in patients with moderate to severe chronic plaque-type psoriasis: A randomized, open labelled, active controlled clinical trial	Running
